Description

This function returns the width of an image in pixels.

Warning:

cPanel API 1 is **deprecated**. We **strongly** recommend that you **do not use** cPanel API 1. However, no equivalent function exists in our newer APIs.

Important:

In cPanel & WHM version 76 and later, when you disable the `WebServerRole`, the system **disables** this function. For more information, read our [How to Use Server Profiles](#) documentation.

Examples

▼ LiveAPI PHP Class

```
$cpanel = new  
CPANEL(); // Connect  
to cPanel - only do  
this once.  
$image_wdimension =  
$cpanel->apil('ImageM  
anager', 'wdimension',  
array('images', 'image  
.jpg')); // Call the  
function.
```

Note:

For more information, read our [Guide to the LiveAPI System](#).

Function information

About this module

The ImageManager module creates thumbnails, resizes images, and performs other image manipulation functions.

 - Email: getarsfrom
 - Email: getarshtml
 - Email: getarsinterval

Command Line

```
cpapil
--user=username
ImageManager
width dimension images
image.jpg
```

Notes:

- You **must** URI-encode these values.
- username represents your account-level username.
- For more information and additional output options, read our [Guide to cPanel API 1](#) documentation or run the `cpapil --help` command.
- If you run CloudLinux™, you **must** use the full path of the `cpapil` command:

```
/usr/local
/cpanel/bin/cpapil
```

Output (plaintext)

```
700
```

Parameters

Parameter	Type	Description	Possible Values	Example
dir	string	Required The directory that contains the file to measure.	A valid directory path, relative to the cPanel account's home directory.	images
file	string	Required The name of the file to measure.	A valid filename.	image.jpg

Returns

This function returns the width of the image file, in pixels.

- cPanel API 1 Modules - ImageManager — The ImageManager module creates thumbnails, resizes images, and performs other image manipulation functions.
- cPanel API 1 Functions - ImageManager::convert — This function converts an image to a new file format.
