

Account Preferences

(cPanel >> Navigation Bar >> User Preferences menu >> Account Preferences)

Overview

Use this interface to change your account settings.

System Notifications

This function sets where on the screen that system notifications appear. To change the location of your system notifications, click the location that you prefer.

Notes:

- This setting applies to every page on which a notification appears.
- The location of system notifications defaults to the top right of the screen.
- The *Centered* selection will create an overlay for the screen. Click anywhere on the screen or press the `ESC` key to close the notification.
