

EasyApache 4 Change Log

EasyApache 4 does **not** use versioning and organizes changes by date only.

Each entry contains the following information:

1. The package that we changed.
2. The GitHub® repository link.
3. The RPM's version.
4. A description of the change.

For more information about our GitHub repository, read our [The EasyApache 4 Git Repository and Build Updates](#) documentation.
